- 6.9. The Client acknowledges that the suspension/temporary halt of trading in any securities may be initiated by the third parties in connection with corporate events of the current issuer. The Client bears all risks associated with such restrictions, and the Company shall not be liable for the inability to execute a transaction during such restrictions.
- 6.10. The Client acknowledges and accepts that there may be other risks than those mentioned in these General Terms, as well as that they have read and understood Company's Risk Disclosure Notice which was provided to them during the Account opening process, and which is available on the Company's website.

- 8.4. It should be noted that trading of certain Financial Instruments occurs during specific timeframes. The Client is responsible to regularly visit the "Pricing and Rates" page in the Company's website of such Financial Instruments for further details prior to commence trading activities.
- 8.5. In the absence of any other agreement between the Company and the Client, the Company will act on any Instruction which it reasonably believes to have been given, or purporting to have been given by the Client or any person authorised on Client's behalf, without enquiring as to the genuineness, authority or identity of the person giving or purporting to give such Instructions.

- 8.8. The Company reserves the right, at its absolute discretion, to confirm in any manner that it may determine the Instruction and/or Orders and/or communication sent through the Electronic Trading Platform. By entering into this Agreement, the Client accepts and acknowledges the risk of misinterpretation and/or mistakes in the Instructions and/or Orders through the Electronic Trading Platform, regardless of how it has been caused, including, but not limited to, technical or mechanical reasons.
- 8.9. The Client has the right, using an Electronic Trading Platform or by other means, to provide the Representative, at their own risk, with access to their Trading Account and authorise the Representative to act on their behalf in business relations with the Company in the manner and on the terms set forth in this Agreement, provided that:
- a) the Client has notified the Company in writing or by such other means as the Company may determine at any time on their intention to appoint a Representative; and
 - b) the authorisation is made in the form established by the Company (e.g., in the form of a limited mandate (Trading Authorisation) or otherwise, hereinafter – the “**Authorisation Document**”); and

For the avoidance of doubt, the Company may request the Client to provide other additional documents confirming the authorisation of the Representative and not recognize (consider the Representative’s authorisation terminated) if the Client fails to provide such documents.

Unless the Company receives written notice from the Client of the termination of the Representative’s authorisation, in a manner deemed necessary by the Company at any time, the Company may continue to accept Instructions and/or Orders given by such Representative on behalf of the Client, and the Client is obligated to accept such Orders as valid and binding. Written notice from the Client of the termination of the Representative’s authorisation must be received by the Company no later than two (2) (two) Business Days prior.

If, after Instructions are received, the Company reasonably believes that it is not practicable to act on them within a reasonable time, or the Company reasonably believes that it is in Client’s best interest not to act on such Instructions, the Company may defer acting upon those instructions until it is in Company’s reasonable opinion, practicable (or in Client’s best interest) to do so, or notify the Client that the Company declines to act upon such Instructions.

Any type of order, as described in the Company’s Order Execution Policy, which is unavailable through the Electronic Trading Platform, will be automatically rejected by the Company.

The status of the Orders is always shown on the Electronic Trading Platform. If access to the Electronic Trading Platform is not possible, the Client may contact the Company by telephone and request the status of any of their pending Orders.

The Company shall bear no liability for any losses resulting from any delay or inaccuracy in executing Client’s instructions, nor in deferring acting or refusal to act.

- 8.11. - 8.12. The Client's Orders are executed at Bid/Ask prices which the Client can find on the Electronic Trading Platform, as applicable. The Client places their order at the prices they can find on the Client's terminal and when the execution process is initiated. Generally, the transaction is executed at the prices the Client can find on the Client's terminal. However, due to the high volatility of the markets as well as the internet connectivity between the Client terminal and the server, the prices requested by the Client and the current market price may change during the confirmation process.
- 8.13. In case of force-majeure, hacker attacks or other illegal actions against the Electronic Trading Platform or the equipment of the Company, as well as in case of a suspension of trade in the financial markets concerning Financial Instruments, the Company may suspend, freeze or close the Client's positions and request the revision of the executed Transactions.
- 8.14. The Client acknowledges and agrees that there are several situations where the Company will not owe the Client any duties of best execution, including without limitation, a case when the Client gives specific Instructions to the Company and the Company executes Client's order in accordance with these Instructions – in that case the Company will fulfill its obligations to the extent of these Instructions.
- 8.15. When executing Orders on the Client's behalf the Company acts in accordance with the Order Execution Policy (as amended from time to time) to which the Client give their consent. Company's Order Execution Policy is presented together with this Agreement, the latest version of the Company's Order Execution Policy is to be also available on the Company's website or from Client's usual contact with the Company.
- 8.16. Considering the volume of the Client's Order and the current market conditions, the Company reserves the right to proceed with partial execution of the Order.
- 8.17. Trading operations using additional functions/plugin made available through the Electronic Trading Platform such as "Trailing Stop" or "Expert Adviser" are executed completely and exclusively under the Client's responsibility and at their own risk, as they depend directly upon the Client, and the Company bears no responsibility whatsoever. 9. REFUSAL TO EXECUTE ORDERS

- 9.1. The Company reserves the right, at any time during its relationship with the Client and at its own discretion, to refuse the provision of any of the Services, including but not limited to the execution of Instructions for the purpose of trading in Financial Instruments, without giving any notice and/or explanation to the Client. The cases in which the Company is entitled to do so include the following:
- i) if the Client does not have the required funds deposited in the Company's Client Trading Account;
 - ii) whenever the Company is of the opinion that the Order violates the smooth operation or the reliability of the Company's Trading Platform;
 - iii) whenever the Company is of the opinion that the Order aims at manipulating the market of the specific Financial Instrument;
 - iv) whenever the Company is of the opinion that the Order is a result of the unlawful use of inside information;
 - v) whenever the Company is of the opinion that the Order aims to legalize the proceeds from illegal acts or activities or aims to violate anti-money laundering rules and legislation under the Applicable Laws.
- In view of the above, the Company shall not be obliged to execute the Client's Orders that lead or can potentially lead to violation of any Applicable Laws which the Company is subject to. The Company shall be entitled to do whatever it deems necessary to comply with such Applicable Laws as well as to inform the Client that the Client's Orders are in conflict with some Applicable Laws and it is necessary to amend the Client's Orders in accordance with the Applicable Laws.
- 9.2. The Company reserves the right to refuse the execution of a pending Order and/or modify the opening/closing price of an Order in case a technical or any other type of error occurs.

- 9.3. The Client accepts that any refusal by the Company to execute any of their Orders shall be without prejudice and does not affect any obligation which the Client may have towards the Company or any right which the Company may have against the Client or his assets.

- 10.1. The Company allows the Client to use the facilities described in these General Terms when carrying out Margin Transactions. The Company allows the Client to use the facilities described in these General Terms when carrying out Margin Transactions.
The Funds and/or Securities required for Margin Transactions are sourced from third-party liquidity providers or market counterparties (including market makers). The Company acts solely as an intermediary in facilitating access to such liquidity and does not act as a lender, credit provider or principal in relation to Margin Transactions. The Client acknowledges and agrees that: (i) the Company does not act as a lender, credit provider or principal and does not extend credit or leverage to the Client and acts solely as an intermediary in facilitating access to Funds for the Margin Transactions; (ii) the Funds and/or Securities remain the property of the third-party liquidity or financing provider and are made available to the Client through the Company in accordance with the General Terms, the rules and the terms agreed between the Company and the third-party liquidity/financing provider; (iii) the Company's role is limited to transmitting and executing the Client's Orders and facilitating the corresponding Transactions under these General Terms; (iv) the Company does not at any time assume market risk or credit risk in respect of Margin Transactions.
- 10.2. The Client acknowledges that Margin Transactions may result in temporary exposures or negative balances during the trading day. Such exposures are subject to ongoing monitoring and risk management and are expected to be resolved within the same trading day (by 22:00 (UTC)) through settlement, position reduction or liquidation in accordance with these General Terms.
- 10.3. The following conditions are mandatory for providing the Client with the Margin Transactions under the General Terms: (i) the Client shall have the Client's Account opened in the Client's name with the Company under the General Terms; (ii) and the Client understands and acknowledges the risks related to Margin Transactions and stated in these General Terms.
- 10.4. Client's application for Margin transactions shall be the Client's instruction to execute a Transaction when the Client does not have sufficient Funds or appropriate Securities to secure execution or to execute such Transaction (hereinafter – the “**Client's Margin Instruction**”).
- 10.5. The Client shall perform under and settle all margin trades as set out in these General Terms and by applicable settlement deadlines. The Client acknowledges that failure to comply with the provisions of this Clause 10 may result in risk management actions by the Company, including restriction of trading activity, reduction of exposure and/or application of Margin Call procedures.
- 10.6. The Client shall have the right to give Client's Margin Instructions in any form, manner, and order envisaged by these General Terms.

B. Terms and conditions of entering Margin Transactions

- 10.7. All Client's Funds and Securities in the Client's Account with the Company that are designated as Marginable Assets may be used as collateral in connection with the Client's Margin Transactions. The Company determines the Marginable Assets and their leverage rates that are used to calculate Margin Requirements solely at its own discretion without any notification to Clients.
- 10.8. The Client's Margin Instructions are accepted for execution exclusively under the following conditions:
- i) the Client maintains sufficient Securities and/or Funds in the Account, which may be designated as Marginable Assets to support the relevant Margin Transaction; and/or
 - ii) the Client provides the Company with a complete set of signed documents stipulated by these General Terms necessary for Margin Transaction.
- 10.9. The following conditions shall serve unconditional grounds for rejecting Client's Margin Instructions:
- i) Client's refusal to accept the Risk Disclosure Notice;
 - ii) withdrawal by the Client of the Client's Margin Instruction;
 - iii) a violation of the requirements in effect at the time the Instruction is submitted, if such Instruction results in, or would result in, Risk coverage ratio 1 or Risk coverage ratio 2 having a negative value;

- iv) the Company does not consider that a Margin Transaction is appropriate for the Client.
- 10.10. Notwithstanding the aforesaid the Company hereby notifies the Client, and the Client agrees with and acknowledges the following:
- (i) whereas the performance by the Company of Margin Transactions may result in arising and incremental of market and counterparty risks, the Company has a right to refuse the execution of Client's Margin Instruction for Margin Transaction, suspend its execution, close any Open Position or Open Margin Position, or otherwise take risk management measures in accordance with these General Terms; and
 - (ii) the ability to facilitate Margin Transactions depends on actual availability of the Funds and Securities in the market, the Company may, at its sole discretion and without liability, determine whether such Margin Transactions can be executed.

The Funds and Securities for Margin Transactions are granted for an account of brokers to which the Client's Order is transmitted for execution by crediting an account maintained by an intermediary broker that holds the assets of multiple clients (including the Client's) on the basis of privacy and confidentiality (omnibus account), opened by the Company with this intermediary broker.

- 10.11. From the moment of carrying out a Margin Transaction, the Client may incur obligations and exposures in connection with such Margin Transaction ("Client's obligations or Client's Indebtedness") and in this connection the Client hereby undertakes the following obligations and risks:
- i) throughout the entire period of Client's Indebtedness, the Client shall maintain the Risk coverage ratio 1 and Risk coverage ratio 2 at non-negative values as defined in these General Terms. For the purposes of the General Terms, this entitles the Company, at its sole discretion, to reject, in whole or in part, the Client's Instructions to withdraw (transfer) Assets from Client's Account if, as a result of such withdrawal or transfer, Risk coverage ratio 1 or Risk coverage ratio 2 would become negative;
 - ii) to follow these General Terms and Company's requirements relating to Margin Transactions;
 - iii) to bear and accept the risk of possible refusal of the Company to execute Client's Margin Instruction for Margin Transactions, or possible suspending of its execution, and the risk of actual or possible losses arising from such refusal or suspending;
 - iv) to bear and accept the risk that Margin Transactions may not be facilitated due to market conditions, availability of liquidity or other factors, and the risk of actual or potential losses arising therefrom.

Upon the occurrence of Client's Indebtedness, the Company has a right to reject Client's Instructions to withdraw Funds from Client's Account with the Company.

- 10.12. The Company may change Margin Transaction requirements at any time without prior notice to the Client and any requirement for Margin Transactions shall be satisfied in such a currency and within such time as may be specified by the Company in its sole discretion or, if none is specified, within a reasonable time taking into account the nature of the relevant Margin Transaction and prevailing market conditions.

C. Explanatory note regarding Margin Requirements Ratios

- 10.13. A significant factor influencing the performance of Margin Transactions is the requirement to maintain an adequate level of margin coverage, reflecting the sufficiency of the Client's Assets to meet Margin Requirements. Under these General Terms, the Company establishes the following normative Margin Requirements Ratios (parameters):
- Risk coverage ratio 1 - If Risk coverage ratio 1 has a negative value, the Client may be restricted from opening any new positions (in which case only closing positions are available);
 - Risk coverage ratio 2 (Margin Call level) - if Risk coverage ratio 2 has a negative value, the Company is entitled to require the Client either to provide additional Assets and/or to reduce exposure, including by closing Open Positions, in order to restore the required level of margin coverage.

If the Applicable Law provides for any requirements pertaining to Margin Requirements Ratios (parameters) and/or the order of their determination, the Company establishes normative Margin Requirements Ratios (parameters) according to such requirements.

- 10.14. The Client understands and acknowledges that in the event that the Risk coverage ratio 1 or Risk coverage ratio 2 becomes negative, the Company may suspend or refuse execution of the Client's Margin Instruction. The Company also may suspend the execution of the Margin Instructions at its exclusive discretion.

- 10.15. No previous Margin Transactions requirements specified by the Company shall preclude increasing the parameters specified in paragraph 10.11 above without notice. The Client is obliged to monitor positions in short sold Securities and close them as soon as the Company disables their ability to be sold through Margin Transaction. Failure to fulfill this requirement authorises the Company to close these positions immediately without any prior notice to the Client.
- 10.16. The Client acknowledges and understands that the various jurisdictions and/or Client's classifications may require the imposition of maximum and/or minimum Margin Requirements (as well as the other parameters associated with Margin Transactions) on Accounts maintained by their residents. To comply with such regulatory obligations, the Company reserves the right to limit and/or restrict the Margin Transactions requirements and/or increase the Margin Requirement applicable to such Accounts. To that extent, if any Margin Transactions were executed at a leverage ratio exceeding such limitations and/or to the extent the overall Margin Requirement applicable to such users has not been met when due, the Company reserve the right to close any or all of Client's Open Positions without further notice whether at a loss or a profit and liquidity Client's Account. The Company may close out one or more of Client's Open Positions according to the procedure stated in these General Terms.
- 10.17. Without derogating from the generality of the above, the Company is required to limit the amount of leverage that Retail Clients can apply to certain Margin Transactions, depending on where those Clients are residents. The Company sets out the relevant leverage limits relating to Retail Client transactions on the Company's website. Professional Clients shall not be subject to prescribed leverage limits.
- 10.18. The Company reserves the right to refuse, limit and/or restrict the Margin Transaction to the Client at any time and without prior notice at its discretion.

D. Interest and Expenses

- 10.19. The Client acknowledges that, in connection with Margin Transactions, the Client may have Client's Indebtedness (for accounting and risk management purposes only) and undertakes to pay applicable fees, charges and Expenses associated with the maintenance and settlement of Margin Transactions. Payment of Interest in connection with Margin Transactions shall be performed on the basis of interest rates for their calculating, specified in the Fee Schedule being of Appendix 3 to these General Terms (as amended from time to time). The Company has the right to unilaterally adopt a new fee schedule and make changes/amendments to the current fee schedule without the prior consent of the Client.

E. Settlements with the Client when concluding Margin Transactions

- 10.20. The Client is responsible for always maintaining appropriate arrangements with the Company for the receipt and communication of information regarding Margin Transactions. The Client accepts and acknowledges that the Company may require the Client to increase the amount of Funds in the Client's Account pursuant to a Margin Call. A Margin Call may be based upon several factors, including without limitation, Client's overall positions with the Company, amount of Funds in Client's Account, the number of Open Positions within Margin Transactions, the volume traded, Client's trade history, market conditions, etc.
- 10.21. If Risk coverage ratio 2 becomes negative, the Company is entitled to require the Client either to provide additional Assets and/or to reduce exposure, including by closing Open Positions, in order to restore the required level of margin coverage. The Company may, where practicable, use reasonable efforts to notify the Client of the occurrence of the Margin Call through one or more of the following means; however, the failure to provide such notification shall not limit or affect the Company's rights under these General Terms:
- by phone;
 - by authorized and indicated e-mail, specified in the Client's questionnaire; or
 - within the framework of the TraderNet Electronic System or any other Company's Electronic Systems.

From the moment the Margin Call occurs, the Client shall execute the Margin Call by funding the Client's account with Funds or Securities or closing Open Positions to restore the required level of margin coverage to meet the applicable Margin Requirements. Failure to meet the applicable Margin Requirements following a Margin Call may result in the Company taking risk management measures, including closing one or more of the Client's Open Positions without prior notice, whether at a loss or a profit, in accordance with these General Terms.

- 10.22. The Company has a right to abstain from accepting the incoming Client's Margin Instructions for execution or suspend execution of the accepted Client's Margin Instructions until the Client transfers Additional Assets or closes Open Positions or issues an Order to provide such Assets or close Open Positions or sends the Company an Instruction to receive such Assets on behalf of the Client to Client's Account with the Company.

- 10.23. The Client acknowledges that, in connection with Margin Transactions involving Securities, the Client may be required to make payments or adjustments equivalent to any distributions of profits (including dividends or other income) relating to such Securities for the relevant period from the conclusion of the respective Transaction until the relevant position is closed. Such adjustments shall apply irrespective of whether the Client has actually received such distribution and, where applicable, shall be subject to deduction of any taxes and duties applicable to such class of Securities. The Client authorises the Company to withhold any such distributions credited to the Client's Account or to debit the corresponding amounts from the Client's Account, in accordance with these General Terms.
- 10.24. - 10.33. If the internal rules of trade organizer or stock exchange selected by the Company as a place for selling Client's Securities stipulate (for trading by lots or in the amounts that are multiple) for a minimal standard lot set by the internal rules of trade organizer or stock exchange, the Securities can be sold in the amount exceeding that which is required in connection with the settlement of Client's Indebtedness.
- 10.34. The Funds obtained as the result of selling Client's Securities are credited on Client's Account in the order stipulated by General Terms on next several days after the Transaction is concluded according to the settlement cycle of the Financial Instrument. The Funds for settlement of Client's Indebtedness are debited on the Client's Account with the Company. Any remaining Funds left after such settlement are credited on Client's Account.
- 10.35. If the Funds obtained as a result of selling Securities are not sufficient to fully settle the Client's Indebtedness and no other Securities are available for sale, the Client shall, no later than the end of the Business Day

- following the occurrence of a Margin Call, take actions to settle the remaining Client's Indebtedness, including by providing additional Assets to the Client's Account and/or delivering equivalent Securities to the designated account.
- 10.36. When performing Transactions and operations with Client's Assets aimed to settle Client's Indebtedness, the Company reserves a right to collect from the Client in addition to any fees, charges or levies stipulated by these General Terms an additional fee for the provision of investment services and compensation of expenses related to execution of the Instructions issued by Client's authorized representative in addition to these General Terms, in the amount and on the terms stipulated by these General Terms.
- 10.37. If the Risk coverage ratio 1 or Risk coverage ratio 2 has a negative value, the Company may refuse to accept and execute any Client's Instructions, except for those aimed at increasing the Client's Own Funds. In this case, all previously accepted Instructions, including Instructions for Margin Transactions, shall become invalid.
- 10.38. Notwithstanding the aforesaid the Company and the Client hereby agree that for the purposes of these General Terms and for risk management purposes in Margin Transactions executed in Client's interests, the Company has a right:

H. Risks and liability of the Client carrying out Margin Transactions

- 10.39. Carrying out Margin Transactions may result in losses exceeding the amount of the Funds held by the Client in Client's Account. To the extent that the Client carrying out Margin Transactions, the Client will increase his profits and losses, as even small changes in the price of the underlying asset may result in significant losses or gains.
- 10.40. Subject to the risks specified above in these General Terms, Margin Transactions risk is a type of risk related to the possibility of loss while carrying out Margin Transactions. Relatively insignificant changes of market conjuncture can render unproportionally more significant impact on Client's Funds, has been contributed or will be contributed: and may work both ways, in favor or against of the Client. To support the position, the Client may suffer from loss exceeding the Net Assets Value. In case of change in the market conjuncture against the Client's interests, or if the Client's Own Funds fall in relation to the applicable Margin Requirements, in order to support the Client's Open Position, the payment of additional significant Funds during the short term may be required from the Client. Failure to do that authorises the Company to close Client's Open Position with loss to the Client, and the Client bears the sole responsibility for any related deficit.
- 10.41. While carrying out Margin Transactions the following additional types of risks may arise:
- i) the risk of failure or partial failure of proceedings of Client's Margin Instruction on the discretion of Company.
 - ii) the risk of price increase on Securities, transferred to the Client. The Client is obliged to return Securities independently from change in their value, although the current market price can significantly exceed its costs during its initial sale.
 - iii) the price risk on Assets, purchased with own Funds, and on Assets, which are a collateral of Client's liabilities for the Company. The size of Assets under the risk of adverse price change is higher than during simple trading. Respectively, losses can occur on a large scale as compared to trading with the Client's own Funds.
 - iv) the risk of investing Funds or risks of loss, exceeding the Funds invested in the event when the Client is obliged to keep an adequate level of collateral obligations to the Company, which can result in the need to conclude Transactions independently from the current level of market prices and the following realization of risks of loss of revenue.
 - v) during the adverse price changes for the Client, to meet the applicable Margin Requirements, in cases, provided by the these General Terms, the Client's position can be closed, which may effect on revenue loss risk, risk of loss of investing Funds or risks of loss, exceeding the investing Funds realization.

Basis risk refers to the risk that the price of a hedging instrument, such as an option contract, does not move in perfect correlation with the price of the underlying asset or the position being hedged.

Client acknowledges that basis risk and all its consequences are part of the Client's obligations.

 - 13.11. The Company reserves the right to classify and treat the Client's Account as dormant if it has a zero-credit balance and/or has not been funded over a period of 2 (two) calendar months from the date the Company sends the confirmation of account opening and the Company has the right to block such Account.
